A project-based learning

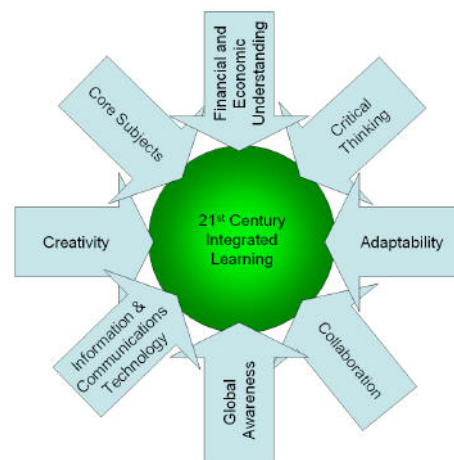

http://ozpk.tripod.com/project

Strategy:
1) Observation before reflection.
2) Reflection before action.
3) Define a problem, solve it by teamwork.
4) Dare to present a creative and innovative solution with a marketing plan.
5) Test the solution and present the solution.

Objectives:
1) To obtain an ability to build and think creatively concerning current issues.
2) To accustom to think before act.
3) To create renovative and constructive projects.
4) To experience the process of solving real world problems.
5) To build up inter-disciplinary relationships and working in teams.

Hierarchy of learning:

1) Objectives
2) Thoughts
3) Actions
